Graduated Class of 2019

Percentage: 41%

Vetri Vidyalaya High Secondry School

Graduated Class of 2017

Percentage: 79.4%

INTERNSHIP

FRONT-END DEVELOPER

Resulticks Edge Solution Technologies | April - August 2024

Developed and optimized React functions: Created efficient JavaScript functions that handle user events, maintain state, and communicate with APIs, resulting in a consistent user experience.

State management: solutions were implemented utilizing Redux and the React Context API to manage dynamic data and increase UI responsiveness.

Performance Improvement: By optimizing code and profiling performance, application load times and unwanted re-renders are reduced.

Comprehensive documentation: To help developers and end users, I created clear and simple documentation such as user manuals, API tutorials, and technical notes.

Content Creation: Wrote interesting blog entries and tutorials about front-end development best practices, feature highlights, and industry trends.

PROJECTS & ACHIVEMENTS

Developed a responsive web application featuring a moon-themed clock with real-time synchronization and interactive animations. Ensured cross-browser compatibility and optimized performance. [Click here.](#)

Developed a responsive web application displaying real-time clock functionality Stopwatch, Alarm, Time Zone Picker and Time Reminder with dynamic updates and user-friendly design. Each of these functions plays an integral role in helping users manage their time efficiently Optimized for performance and seamless responsiveness across devices. [Click here.](#)

Developed an interactive, visually appealing online application that provides an immersive space-themed experience. Animations, dynamic backdrop effects, and seamless transitions make the app's user experience entertaining. [Click here.](#)
